Tech:

General Rules:

- 1# – a clear and recorded rule as to where out of bounds starts and ends.
- 1# - Test puller rule. Clear and defined options as to what can and cannot be done
- # - Rules is for RPM/speed limited classes.
    - What to do if RPM/speed board isn't working properly during a pull?
    - Stop the run? Tell tech at end of track?
    - Also, once issues are brought up why are they not getting fixed before pull continues?
    - Are we using first pull of the year as a test pull for boards?
- Make a clear rule on mulligans.
    - When can they be used?
    - First time pulling with club
    - If the board doesn't read anything
    - What if the board reads high
- Non members pulling in RPM / limited classes without the box.
    - If no RPM is read the vehicle should not be eligible for a payout whether or not it is a member or nonmember. (southwest rules provided)
- Do as a test for 2027 - Water injection water tester and a fuel tester. refractometer for water & dielectric for fuel
